Technical Skills

Languages: Python, C, Java, Assembly (Motorola 68000), JavaScript, TypeScript, HTML, CSS

Frameworks: React, React Native, Vite

Backend & Databases: Node.js, Supabase (PostgreSQL), Google Firebase

Technologies/Tools: Docker, GitHub, Vercel, Expo, Claude Code, Cursor, Microsoft Copilot, Figma, Linux, Easy68k

Education

Bachelor of Computing in Computer Science (Co-op)

Sept 2024 – Present

University of Guelph

Guelph, Ontario

- Completing a minor in Neuroscience
- Relevant Coursework: Operating Systems, Data Structures, Object Oriented Programming, Software Systems Development and Integration, Structure and Application of Microcomputers, Web Design & Development, Statistics

Technical Work Experience:

Jack & Jill Health Inc.

June 2026 – Present

Junior Developer

Toronto, Ontario

- Building full-stack features across patient platform, CRM, and EMR using TypeScript, Next.js, Angular, and MongoDB.
- Engineered a TypeScript/Next.js scoring engine implementing 9 validated clinical instruments (PHQ-9, PSS-10, ISI, IBS-SSS), giving patients instant personalized health insights; shipped behind a PostHog flag with 12 Vitest suites.
- Rebuilt the treatments catalog into a CRM-driven Next.js + MongoDB storefront of 46 products, replacing hardcoded pricing so non-engineers could manage the catalog without code changes.

Personal Projects

[Hera+](#) | ElleHacks 2026 | *React + Vite, Node.js, Supabase, Presage SDK, Google Gemini API, Docker*

February 2026

- **Won 2nd place overall at ElleHacks 2026** by developing a women's healthcare advocacy platform that addresses the 29% dismissal rate women face in medical appointments through AI-powered symptom analysis and vital tracking.
- Built REST API endpoints using Node.js to facilitate communication between the React frontend, Presage SDK, and Google Gemini API, storing AI-driven health reports securely in Supabase.
- Containerized application with Docker for Linux OS compatibility and collaborated with 4 developers using Git/GitHub, deploying cross-platform functionality within a 36-hour timeframe.

[LockIn](#) | HackHive 2026 | *React + Vite, Node.js, Google Gemini API, Supabase, Figma, Vercel*

January 2026

- Collaborated with team of 3 to build matchmaking platform using React, Node.js, and Supabase database, creating customizable profiles with community-specific filters to provide safer gaming spaces for marginalized Valorant players.
- Implemented full-stack matchmaking flow with AI-assisted discovery and accept/decline functionality, enabling secure connections between players through Riot ID and Discord username sharing for coordinated gameplay.
- Designed cohesive visual identity and intuitive UI/UX using Figma, Aseprite, and Clip Studio Paint, creating custom assets and user flows that enhance accessibility and engagement for underrepresented gaming communities.

Technical Extra-Curricular / Volunteer Experience:

University of Guelph Robotics Team

Sept 2024 – May 2026

Website Developer

Guelph, Ontario

- Developing UGRT website for the yearly Canadian International Rover Challenge by collaborating with a team of 6 on wireframes, site architecture, and frontend implementation using HTML, CSS, and Python to showcase team achievements and rover projects.
- Creating responsive user interfaces using Figma and coordinating with development team via GitHub for version control, contributing to iterative improvements through regular hybrid development meetings.

Google Developer Groups

Sept 2024 – Dec 2024

Technical Workshop Assistant

Guelph, Ontario

- Mentored 50+ workshop participants across web development and Kickstart workshops, delivering real-time technical support for HTML, CSS, React, and VS Code challenges while fostering an engaging and inclusive learning atmosphere.

Non-Technical Extra-Curricular / Volunteer Experience:

Anime Club Genshiken + Ākēdo Festival

Sept 2024 – Present

Events Team Executive & Vendor Coordinator

Guelph, Ontario

- Planning and executing weekly campus events by coordinating with events team on logistics, room booking, and promotion, supporting anime community engagement and growing club membership.
- Secured 20+ vendors for university-hosted Ākēdo Festival anime convention through outreach and coordination with subteams, ensuring diverse vendor offerings and successful event execution.
